

Type	Topic	Session Submitter	Session Title
Panel Discussions	Organizational and Professional	Sarah Gage	Will Work for Salmon, or Careers related to Salmon Recovery
Panel Discussions	Ecosystems	Steve Martin	Panel Title: Southern Resident Orca, the threats they face and what needs to happen immediately
Panel Discussions	Policy	Steve Martin	Salmon Recovery 20 Years in the Making. Where Next?
Panel Discussions	Ecosystems	Alex Conley	The Forgotten Fish: Recovering Bull Trout
Panel Discussions	Organizational and Professional	Annalise Ritter	Salmon Recovery Network: Making the Washington Way Work
Panel Discussions	Ecosystems	Kathleen Berger	The Puyallup Watershed: A Case Study in Integrated Floodplain Management
Panel Discussions	Ecosystems	Colleen Weiler	Intersections in salmon and Southern Resident killer whale recovery
Panel Discussions	Organizational and Professional	Eloise Harris	It Takes a Village: Communicating Salmon Recovery and Intersectionality
Standard Format Sessions	Ecosystems	Justin Bush	INVASIVE SPECIES IMPACTS TO SPECIES RECOVERY, THE ENVIRONMENT, AND ECONOMY: WASHINGTON STATE'S COMPREHENSIVE APPROACH TO PREVENTION, CONTAINMENT, AND MANAGEMENT
Standard Format Sessions	Ecosystems	Catherine Corbett	Integrating Climate Change Adaptation Measures into Restoration Design and Reserve Planning in the lower Columbia River.
Standard Format Sessions	Restoration	Beth leDoux	One Size Does Not Fit All: Planting Riparian Buffers in Working Agricultural Landscapes
Standard Format Sessions	Emerging Science and Tools	Paul Schlenger	Advances in Tidal Habitat Restoration Planning
Standard Format Sessions	H-Integration	Amelia Johnson	Assessing and Addressing Threats to ESA-listed Salmonids at Ecosystem-Scales
Standard Format Sessions	Monitoring	Stacy Polkowske	Different monitoring approaches for adaptive management and salmon recovery.

Standard Format Sessions	Organizational and Professional	Tricia Snyder	Communicating Salmon Recovery
Standard Format Sessions	Restoration	Lisa Spurrier	Time Capsules and Tarot Cards -The increasing complexity of restoration projects over the last twenty years and what the future holds for restoration.
Standard Format Sessions	Restoration	Letitia (Tish) Conway-Cranos	Juvenile salmon and estuary ecosystem function across deltas and restoration projects in Puget Sound: What have we learned, where are we going?
Standard Format Sessions	Ecosystems	Iris Kemp	Marine Food Web and Habitat Interactions in the Salish Sea
Standard Format Sessions	Emerging Science and Tools	Nathaniel L. Scholz	Urban Stormwater Threats and Clean Water Strategies to Conserve and Recover Coho Salmon
Standard Format Sessions	Policy	Amy Trainer	Honoring Tribal Treaty Rights Through Bold Salmon Recovery
Standard Format Sessions	Restoration	Molly Fay	How much space does a river need? Establishing ecological corridors for large scale restoration and monitoring
Standard Format Sessions	Land and Water Use	Molly Fay	Alluvial Water Storage: Losses from Channel Incision and Potential for Restoration
Standard Format Sessions	Restoration	Emelie McKain	Chehalis Basin Aquatic Species Restoration Plan – Insights on Restoration Plan Development and Implementation
